Laura,

Here is another one for you. Again, your call, but in my view I think it makes sense for you to review first and then for you to highlight where we need Amber to further refine or review.

Thanks,
Karissa

Awesome, thanks. It's 6am here and I'm going back to bed – having trouble sleeping and got up a little bit ago, but I need more sleep. Please note that I sent Monique's paper on methoxychlor earlier today so can you review that now too, before me? Then I'll look at it later today and get it back to Monique with my comments on top of yours. Thanks. That will complete your review of all six papers and I will be done with 5/6 until tonight when I get back to Monique's.

Amber,

Here are five of the six papers for the meeting with my comments in. Let us know your timing and then we can collectively see what works best. Monique will let us know on the last one!

Thanks,
KK

Amber,

I am reviewing OCSPP's draft POPRC papers before they go out for EPA and Interagency clearance. So far I have read two, but am hoping to finish the rest (only a few more, I think) tonight. I am wondering when you might be able to/willing to review them? If you have some time in the next day or two, I think it would be better if you read them with my comments in them so that you could see what I am asking/thinking and not have to duplicate my comments if we share the same thoughts and so that Laura and Monique could revise them only once before they go out. Then they could go out before the end of the week (maybe Wednesday?) with you and me both having cleared.

Just let me know when you can and then I can decide whether to wait for your review before I send them back to Laura and Monique!

Thanks, hope you had a nice Christmas.

Best,
Karissa
